*This house is where we live
high on the mountain side,
Amid the spruce and fir and pine
with vistas far and wide.*

*There's lots of room behind these doors
the latch is open wide.
A fire is burning on the hearth,
there's warmth and cheer inside.*

*We hope that you may someday pause
from all the rush and grind
And come and say, "Hello" to us;
a welcome you will find.*

*Now the flowers are out in bloom
in many vivid shades;
They are marching up the mountain side
like soldiers on parade.*

*Some are dressed in velvet gowns
and some in frills and lace,
So come and see them very soon,
you'll love each smiling face.*

BLUE SPRUCE SEED

Without doubt, the Colorado Blue Spruce is the loveliest evergreen in America. It is of rather slow growth and for this reason is quite expensive. Prices in most nurseries range from \$5.00 to as much as \$12.00 per foot, depending somewhat on the size of the trees. Given a little special care it is not difficult to grow from the seed. We offer choice seed in liberal packages; enough to grow 200 or more trees. Complete instructions for growing are included with each package.

Price per pkg. — 50c
